

Young Investigators Award - In attention: under 40!

(A pályázat lezárult!)

Dear Colleague,

The World Society of Arrhythmias has a long tradition in organizing successful Conferences, like the 1999 Berlin meeting or the 2003 Hong Kong meeting and the 2007 Rome meeting to name a few. Your presence through a Research Project will attach the scientific status we all expect to the Congress.

In the WSA Congress a YOUNG INVESTIGATORS AWARD is going to be given. If you are under 40 by the abstracts submission deadline, you may apply for your abstract to be included in the judging.

In the Congress there are going to be some special sessions such as:

- FEMALE ELECTROPHYSIOLOGISTS
- YOUNG ELECTROPHYSIOLOGISTS
- HEALTH ECONOMICS IN ARRHYTHMIAS
- HEALTH CARE SYSTEMS AND CARDIAC ELECTRONIC DEVICES
- AFFORDABILITY AND ACCESSIBILITY IN THE WORLD OF ARRHYTHMIAS

Extension of deadline

As expected, during the last few days the ICPES web server has received a large number of submitted abstracts. Some colleagues have expressed a wish to postpone their submissions due to their absence on summer holidays. Accordingly, the Scientific Committee is extending the abstract submission period.

The new deadline is 25th July, 2011

and the abstract submission site will remain open until then.

HOW TO SUBMIT YOUR ABSTRACT

You can submit your abstract online >>

We would like to thank you for supporting the World Society of Arrhythmias Congress
